

### **MULTIPLE OWNERSHIP RULES CERTIFICATION**

Grant of the instant application would result in the assignee and its attributable parties having cognizable interests in the following two full power commercial AM radio stations in the same market:

- WKCE, Facility ID No. 17472, Maryville, TN
- WVLZ, Facility ID No. 43771, Knoxville, TN

Both WKCE and WVLZ are located in the Knoxville, TN market. *See* screenshots below of BIA Advisory Services public website showing the stations' assigned market. Conducting a basic search of the Commission's CDBS database for AM and FM stations with Knoxville, TN, as their community of license reveals that nine AM and eight FM stations have Knoxville as their community of license. *See* screenshots below of CBDS website showing such stations. (This number of stations in the market, of course, is not inclusive, as it fails to account for any other stations in the Knoxville market that have a community of license other than Knoxville; e.g., WKCE.)

Accordingly, the assignee's proposed common ownership of two AM stations in the market is in compliance with 47 C.F.R. § 73.3555(a).
